

About Nokia

At Nokia, we create technology that helps the world act together.

As a trusted partner for critical networks, we are committed to innovation and technology leadership across mobile, fixed and cloud networks. We create value with intellectual property and long-term research, led by the award-winning Nokia Bell Labs.

Adhering to the highest standards of integrity and security, we help build the capabilities needed for a more productive, sustainable and inclusive world.

Our customer focus

Communications service providers

We partner with mobile, fixed, cable and converged service providers to deliver critical networks with the highest performance, reliability and security to grow their business and create new value.

Industry and public sector

We help asset-intensive industries and governments transform the mission-critical networks they rely on to be more secure, resilient, and digitalized to better manage, control, and automate essential operations.

Licensees

We enable others to build on our innovation through licensing our patent portfolio, helping customers integrate our audio and visual technologies into their products, and by leveraging the strength of the Nokia brand with their customers.

We live our values

With a commitment to integrity, security and sustainability, we deliver innovative solutions that make a difference in people's lives. In recognition of this commitment and our robust compliance culture, we've been honored by the Ethisphere Institute for the past five years as one of the "World's Most Ethical Companies."

"World's Most Ethical Companies" and "Ethisphere" names and marks are registered trademarks of Ethisphere LLC.
