

#1 in enterprise security revenue, year-on-year growth and completeness of security vision (Gartner).

MITRE ATT&CK APT-3

Evaluation - Cortex XDR detected the most attack techniques of any EDR product tested.

Ranked as a leader

in 'The Forrester Wave: Zero Trust eXtended Ecosystem Platform Providers', Q4, 2019.

2019 Gartner Magic

Quadrant - WAN Edge Infrastructure - CloudGenix named a Visionary.

Highest Security

Effectiveness score from NSS Labs for its Next-Generation Firewall.

AUTOMATION:

Tight integration across the platform saves time by reducing manual tasks with machine learning and artificial intelligence.

VIRTUALISATION:

Flexible software-based virtual network functions, reduce cost and complexity across all Enterprise locations.

FLEXIBILITY:

Cloud-based or on premise managed solutions or a combination.

SPEED OF RESPONSE:

Advanced threat analysis leverages machine learning to strengthen prevention, reduce alert volume and speed detection and response.

ORCHESTRATION:

Industry best practices to enable consistently applied security solution.
