

The New Perimeter

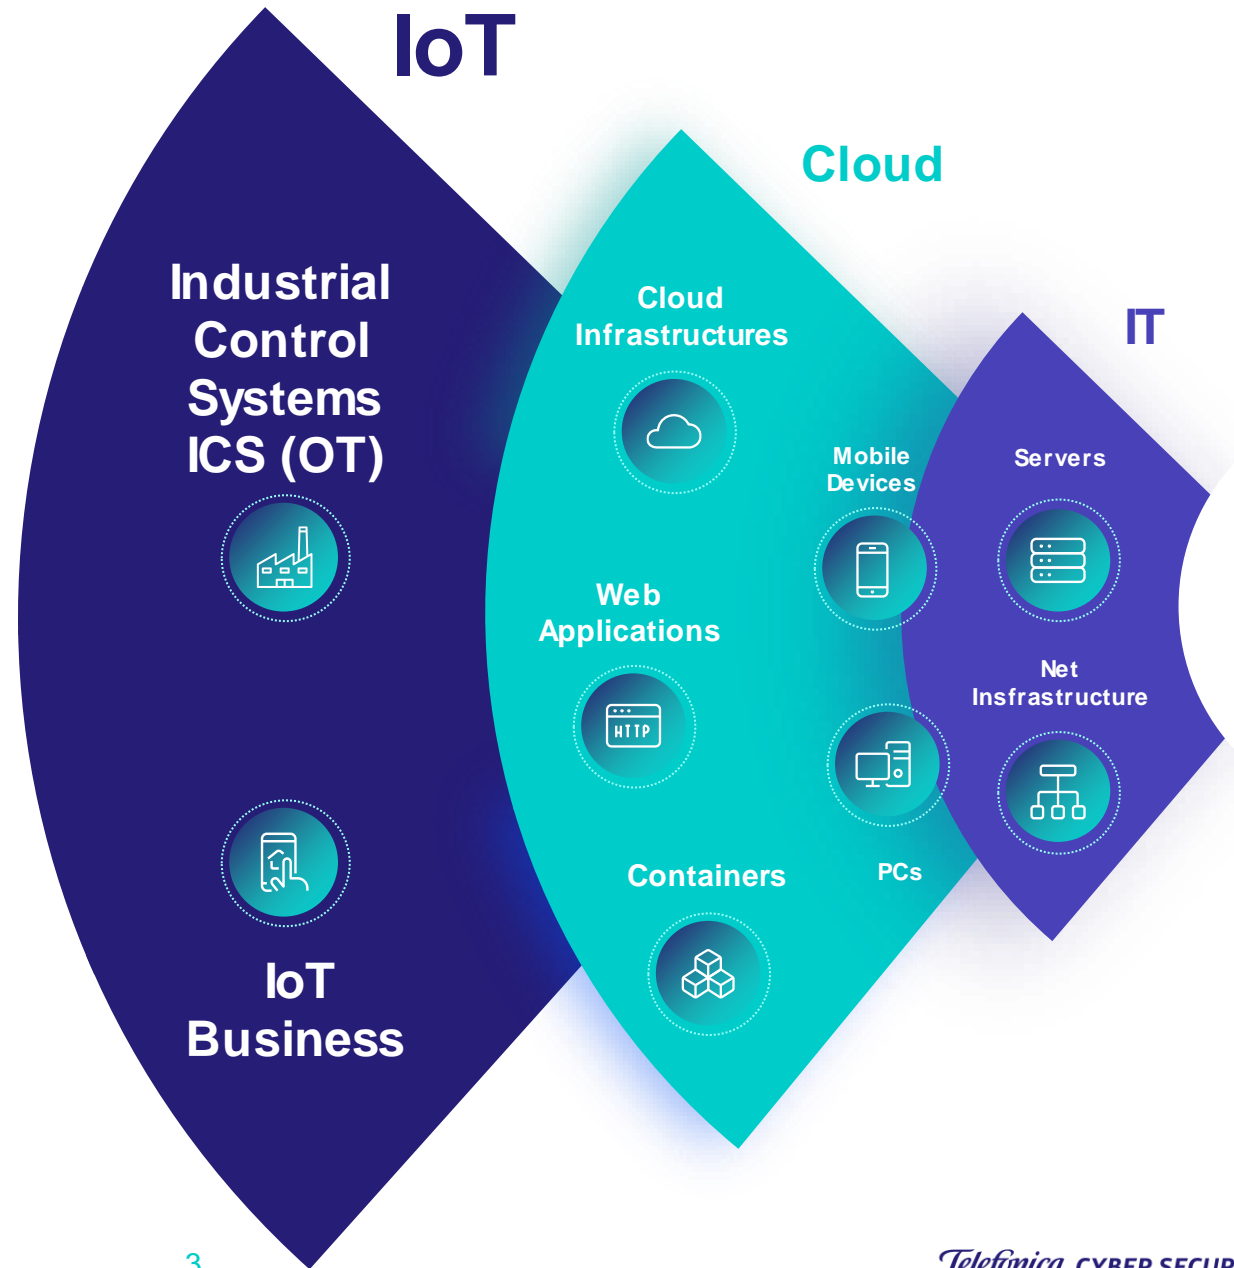

SID2020

IoT and OT Security

IoT (& IIoT)

New wave in the evolution of the digital world that makes the organization's attack surface increase and blur

Facing the cyber security challenges of this new wave of digital transformation

Security OT

Cyber security solutions for risks in traditional industrial plants

Security IoT

For services based on different types of IoT devices

Resilient Factory of the Future

Safety for new production centres from the design stage

The pillars of our
Value Proposition
